

## SWE-73-L Simple digital panel indicator,

### Parameters

<b>Power supply</b>	from measurement line, min. current 3.5 mA, max. voltage drop 7V
<b>Input</b>	current 4-20 mA, overload-protected, input current limited to about 50 mA
<b>Display</b>	LED, red, 4 x 13 mm high
<b>Displayed values range</b>	-999 ÷ 9999
<b>Stability</b>	typ. 50 ppm/°C
<b>Protection class</b>	IP 65 (front side when an additional seal is installed); IP 40 (front side); IP 20 (case and connection clips)
<b>Case material</b>	NORYL UL94 V-0
<b>Operating temperature</b>	0°C ÷ +50°C; -20°C ÷ +50°C (on special request)
<b>Accuracy</b>	± 0,25% ± one digit in the entire operation range
<b>Storage temperature</b>	-10°C ÷ +70°C; -20°C do +70°C (depending on version)
<b>Case</b>	panel mounting
<b>Case dimensions</b>	72 x 36 x 77 mm
<b>Panel cut-out dimensions</b>	67 x 32,5 mm
<b>Installation depth</b>	min. 78 mm
